## **DETAILED ACTION**

### ***Status of Application, Amendments, And/Or Claims***

The Information Disclosure Statement (IDS) filed 6 July 2009 has been entered.  
Applicant's amendment of the claims files 6 July 2009 has been entered.

### ***Requirement for the deposit of Biological material***

Applicant indicates on pp. 15 of the specification that *"A hybridoma culture producing the particular preferred H36.D2.B7 antibody has been deposited pursuant to the Budapest Treaty with the American Type Culture Collection (ATCC) at 12301 Parklawn Drive, Rockville, MD, 10852. The hybridoma culture was deposited with the ATCC on January 8, 1997 and was assigned Accession Number ATCC HB-12255."*

According to MPEP 2401-2411 and 37 C.F.R. 1.801-1.809, the deposit for the hybridoma culture producing the H36.D2.B7 antibody (ATCC HB-12255) has not been perfected. If the deposit is made under the terms of the Budapest Treaty, then a statement, affidavit or declaration by Applicants, or a person associated with the patent owner (assignee) who is in a position to make such assurances, or by an attorney of record over his or her signature and registration number, stating that the deposit has been made under the terms of the Budapest Treaty and that all restrictions imposed by the depositor on the availability to the public of the deposited material will be irrevocably removed upon the granting of a patent, would satisfy the deposit requirements. See 37 C.F.R. §1.808.

***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Terri Shieh-Newton on 16 September 2009.

The application has been amended as follows:

Please amend the specification on page 41, line 12 (under section SEQUENCE LISTING) as follows:

(2) INFORMATION FOR SEQ ID NO:5:

Please amend claim 37 as follows:

Claim 37. A method for reducing tissue factor (TF) levels to treat tumors exhibiting tissue factor expression, comprising administering to a mammal having the tumor a therapeutically effective amount of an antibody that comprises the amino acid sequence of SEQ ID NO: 2 or SEQ ID NO:4, or fragment thereof that binds native human tissue factor to form a complex, whereby Factor X binding to the complex is inhibited and Factor VII or VIIa binding to tissue factor is not inhibited.

The following is an examiner's statement of reasons for allowance: the amendment to the claim was made to clarify the claimed invention. The amendment to the paper copy of the sequence listing was made to correct an obvious typographical

error and in order to bring the paper copy of the sequence listing into agreement with the computer readable form of the sequence listing. Applicant's amendment submitted on 6 July 2009 has overcome all remaining grounds of rejections and objections.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Xiaozhen Xie whose telephone number is 571-272-5569. The examiner can normally be reached on M-F, 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary B. Nickol, Ph.D. can be reached on 571-272-0835. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
